

Caesar Cipher Wheel

Name: _____ Class: _____ Date: _____

Instructions:

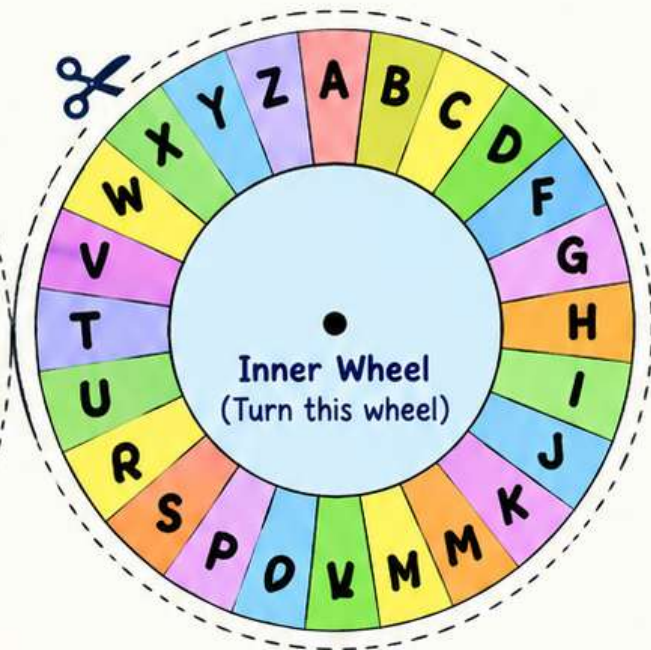

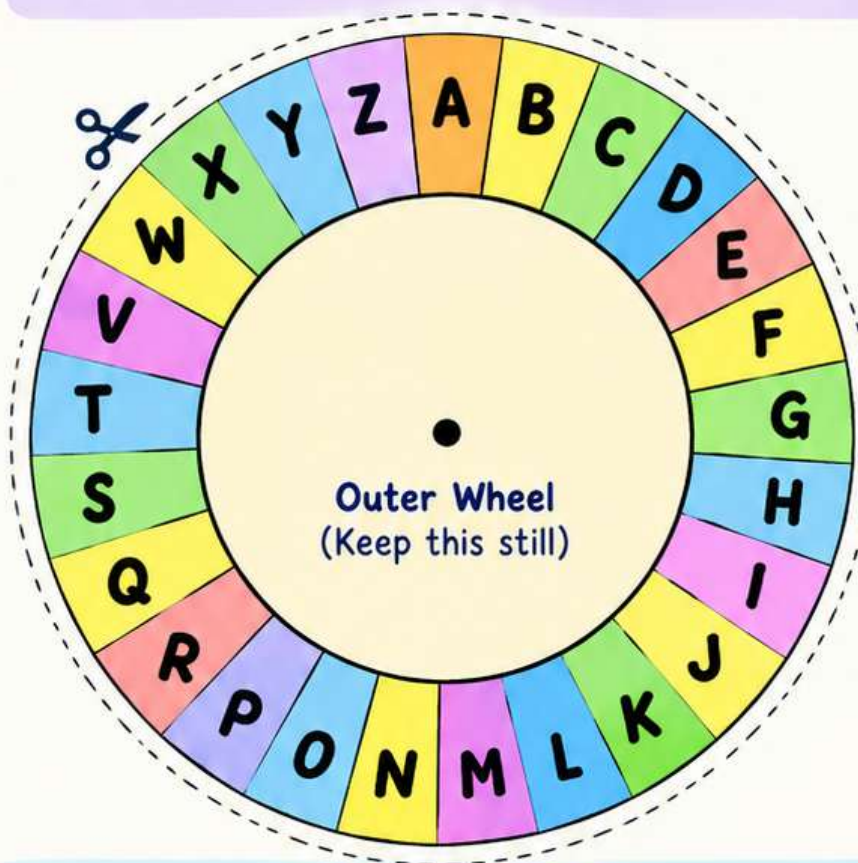

- 1 Carefully cut out the two wheels below.
- 2 Make a small hole in the centre of each wheel.
- 3 Place the smaller wheel on top of the bigger wheel.
- 4 Fix them together with a paper fastener (split pin).

✂ Cut carefully along the dotted line.

Use a paper fastener to join the wheels.

Encrypt = hide

We change a normal message into a secret code so others cannot easily read it.

Decrypt = reveal

We change the secret code back to the normal message to read it.
